The Garden of Sculptures

BLOOM 2015 SILVER GILT MEDAL WINNERS

Garden Designed by: Ingrid Swan MGLDA
in collaboration with
Ruth Liddle of GardenSculptures.ie

Now in its second year The Garden of Sculptures once again was a huge success, showcasing 50 spectacular artworks all created here in Ireland.

This years "Sculpture At The Boatyard " garden took its inspiration from the coastal environment and the maritime industry of ship building. The garden appeared to be located in an old reclaimed disused boat yard which was transformed into beautiful and inspiring garden.

A sculpture adds a whole new dimension and focal point to the garden that can be enjoyed all year round. Smaller pieces were also on show and suitable for both indoors & outdoors.

This concept garden at Bloom brought garden sculptures to the masses and created an avenue for people to buy directly or order their own bespoke piece from www.garden-sculptures.ie

Please contact Ruth for further pieces available by the individual artists
